DETAILED ACTION

Supplemental Election/Restriction

1. Applicant's election **with** traverse of Group I (claims 1-11) in the response filed March 31, 1997 (paper no. 5) is acknowledged.
2. Upon further consideration, it has been determined that this application contains claims directed to the following patentably distinct species of the claimed invention:

Species I - Figure 1;
Species II - Figure 2;
Species III - Figure 3; and
Species IV - Figure 4.

If Applicant maintains the election of Group I as set forth in the previous Office action (paper #4), Applicant is then required under 35 U.S.C. § 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim is generic. It is noted, however, that claim 1 and the claims dependent therefrom appear to be generic with respect to Species I-III.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 3204

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.

3. A telephone call was made to Mr. Steven Kelber on June 16, 1997 to request an oral election to the above restriction requirement, but did not result in an election being made.

4. Applicant is again advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

5. Applicant is again reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
